**H. W. OXNARD,** Civil Engineer and Surveyor, NORWAY MAINE, 44tf

## Doing their Duty

Scores of Norway Readers are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty. When they fail to do this the kidneys are sick. Backache and many kidney ills follow. Urinary trouble, diabetes, Doan's Kidney pills cure them all. Norway people endorse our claim.

Mrs. Julian Brown, living on Danforth St., Norway, Me., says: "I suffered from rheumatism for more than five years. I have been treated by physicians, and have taken a great many remedies in an effort to find relief. About three months ago I was reading the testimonial of a different person who had used Doan's Kidney Pills and decided to give them a trial. I went to Stone's drug store, procured a supply and took them according to directions. I am now using my sixth box and am steadily improving. Doan's Kidney Pills have done for me what no treatment or remedy has previously accomplished and I feel that it will only be a short time before I am entirely cured. I cannot recommend this excellent remedy too highly."

For sale by all dealers. Price 50 cts. Foster-McIlhenny Co., Buffalo, New York sole agents for the United States.

Remember the name—Doan's—and no other. 35-36

## Partridge Bros.

Is the place to get a good bargain on

## Written for the Advertiser.

That Labial Salute.

A Reply to the Dreamer. Most unjustly, my friend, you complain of the moon. Almost anyone stares at such unwholesome a moon. No wonder he peeped, the sound of your snore was like pulling a plaster from somebody's back.

The little stars say—but we doubt it of course—that you gave her a kiss that would water a horse.

Bashtul! Well, say, I'd just like to know if you think that was heard now that you now?

That labial echo, that made the moon peep, Shook the ground so the daisies all talked in their sleep.

That absurd oscillation, held section so strong, Drew the clouds from the face of the moon, which was wrong.

While your tale of that kiss would make one's hair curl, You counted to say what became of the girl. Such a robust salute makes me almost afraid To think of the fate of that innocent maid.

Oh, say, did you see by the dawn's early light? If she'd retained consciousness, was she all right?

Or into oblivion had she been hurled? If you saw her, she was heard "round the world?"

Written for the Advertiser. **The Cave at Kezar Falls.**

Five lakes outspread in the sunlight, Reflected on the snow so fair, Visions of loveliness rare.

Now glowing in the shadows, Now sparkling in the sun, And its waters, rushing onward, Seeking the distant sea.

Murmured the song to me, They said that a beautiful maiden Was imprisoned here in this cavern drear In the eyes of the angry mood.

And morning, noon and evening, Her plaintive voice was heard, She raised her voice in pleadings wild For freedom from this spot.

To the minds of busy mortals, Who heard this mournful sound, It seemed that the prisoned waters Were murmuring under ground.

Seeking a place of egress, From the gloomy caverns there, To the joys of their former progress In the pleasant upper air.

But when Jupiter, Father of Nations, Heard the maiden's cry, He hurried a mighty thunderbolt Straight downward from the sky.

So swift and unerring he hurled it, That it scarcely had left his hand, Ere it reached its destination In this far-off earthly land.

It clef the rocky fastness, Where the prisoned maiden lay, And made her a pathway straight out to the light of day.

And the waters, rushing swiftly, Thro' the chasm that Jove had riven, Sang ever merrily on their way, Seeking their distant haven.

But what was the fate of the maiden Released from her prisoned state, In worlds afar from the earth-world? Is she destined forever to roam?

Created on great Olympus, Crowned queen of all the beings, That inhabit the upper air, Or is the noise of the brooklet, Singing without success, The voice of the beautiful maiden Giving thanks for her release?

In vain, O mortal, seek not This secret to revive. No answer comes from the brooklet Flowing down from the Kezar's Fife.

Written for the Advertiser. **Happiness.**

Happy thoughts make happy men, Cheerful words return again, Generous action, kindly deeds, Are Heaven's most prolific seed.

**NORTHWEST ALBANY.** Carleton Mills has been working for G. B. Mills.

Austin Hutchinson has been in this place buying wool.

Mrs. Irving Hutchinson visited Mrs. E. W. Rolfe, Friday.

Mrs. Hannah Mason has returned to her home in this place.

## HIRAM.

Mail Carrier Has a Vacation.

C. G. Lowell has been taking two weeks vacation and visiting a number of places including Auburn, Lewiston, Cumberland Centre and Portland. Everything in the cities were looking their best, neat and clean, and the lawns with their beautiful display of flowers were a deep green mantle with fragrance of a mid-day summer.

We visited the State fish hatchery near Turner. We found it a delightful spot and the superintendent was a genial and kind man. He showed us from the hatching pens up to the small ponds of large fish. He told us some of these trout weighed 16 pounds. There were a few of the Albino trout which were mottled white. He said these trout came from France. The feeding of the trout was going on as it was about noon when we arrived there. The small trout were fed liver chopped very fine. The small fish were in long troughs which contained 2,000 to a trough. These they were feeding four large spoonfuls of liver twice a day. The pond trout up to three pounds were fed on heart. The very large trout, he said, were not fed anything as they were subject to disease. They were kept mostly for shows. He told us they had been losing quite a number of the larger trout but as they keep a watchman patrolling the grounds night and day there was no chance to lose them only by mink. He set some traps and was rewarded with five mink. Since then he has had no trouble losing them. There is a beautiful grove fitted with seats and a large cold spring of water in the grove, which makes it a fine place for picnicking.

R. S. Moulton continues in very poor health.

Bad colds are prevalent. Five at I. S. Lowell's have them.

C. H. Clemons and wife have been entertaining company from South Portland.

While working on the State road the seat which Walter Spring sat on broke, letting him fall under the wheels of a two-horse load of sand. One wheel passed over one foot, injuring him quite badly.

**FRYEBURG.** Geraldine Fitzgerald of Portland is at A. H. Stevens for a month.

C. W. Pike and son Clayton of Philadelphia have spent a week in Quebec.

Mr. and Mrs. Pettie of Roxbury have been visiting their daughter, Mrs. W. W. Towle and family.

Mrs. A. T. Carter and two sons returned to Woburn, taking Master Philip Walker with her for a visit.

James Eastman and family have been in camp for a week. Mrs. Blanche Page and children were with them a few days.

Principal Ridgely C. Clark of Fryeburg Academy has returned from a week's vacation at his home in Dexter.

Susan Walker read at the centennial celebration of Limerick Academy. Mrs. A. M. Abbott accompanied her in some of her selections.

Work on the academy buildings is progressing rapidly. It is expected that the carpenters and plumbers will complete their part of the work this week. The heating apparatus is now being repaired and a crew is busy on clearing up the grounds. All things seem to indicate a large school this fall.

Agnes Dresser is visiting her brother and his wife at the Arguonot. J. B. Dresser, their father, of Portland, a former proprietor of the Arguonot, has been at the house a few days. With two brothers, one from the west and one from Lewiston and their wives, he visited Lovell, his old home, where a sister, Mrs. John Kimball, resides.

A telegram was received in Fryeburg by Samuel Evans, informing him of the death of his cousin, William Souther, of Crawford, Nebraska. This is the last member of one of Fryeburg's oldest and best-known families. Mr. Souther was born in Fryeburg about 55 years ago, son of the late John and Kate Souther. Mr. Souther went West about 25 years ago and has been successful in business. He leaves a widow and four children in Crawford. Mrs. Geo. Barrows of Fryeburg was a sister to Mr. Barrows' father. The cause of his death was heart disease.

**BUCKFIELD.** Manager Nulty of the Portland Packing Co. has been making repairs at the company's shop.

Martha and Sally Warren returned to their home in Westbrook after several weeks' visit with relatives in town.

Hon. John D. Long and wife are here from Hingham, Mass., for a three weeks' stay at the Long home on North Hill.

Rev. F. M. Lamb has moved his household goods into the parsonage and is making preparations to occupy it permanently after Sept. 1.

The remains of Miner Farrar of Boston were brought here for burial. Mr. Farrar was a son of the late Loring Farrar and a brother of Mrs. Chas. Gray of this town.

Contractor Cole of West Paris commenced work Tuesday, on a cement sidewalk extending from above the railroad crossing on High street to the residence of Alfred Cole. This is the first strip of a system of permanent walks to be put in by the town.

**STREAKED MOUNTAIN.** Mrs. Minnie Stevens is visiting her father, Ambrose Swan.

Mrs. Alice Taylor is visiting her sister, Mrs. Charles Maxim.

James Richards and family called at H. W. Whitman's, Sunday.

John Pettengill and two men from Auburn cut Lorena Winslow's hay last week.

Benjamin Irish of Buckfield has been stopping a few weeks with his niece, Mrs. Cora Whitman.

Mrs. Pauline Soper, Elinor Soper and Mrs. Swift of South Paris visited at H. W. Whitman's, Friday.

## EAST OTISFIELD.

Picnic at Saturday Pond.

The morning of Aug. 20 dawned with the splendor of a beautiful day. The Women's Relief Corps of Oxford and the Golden Rule branch of the same Society together held their annual picnic in the grove by Saturday pond, known as the uncle Joseph Holden grove. The picnic was a very attractive place for family picnics as well as of many different societies. About nine o'clock the people began to arrive by single and double teams and hayracks filled with happy people and gaily decorated with flags.

Several autos also came to the picnic and when the crowd had all gathered over 300 people made the grove resound with merry laughter and hearty cheer. When the dinner hour came the tables which were made and loaned by D. L. Holden and over which floated Old Glory, in all its splendor, fairly groined beneath the heavy load of good things, which the sisters had prepared to appease hunger. The crowd being large it was necessary to reset the tables four times.

The Oxford band furnished excellent music during the day, the bugle call for dinner was listened to with interest and promptly responded to. After dinner a full chorus of voices with Mrs. Lowe of Portland, as organist rendered several fine selections of songs. During this concert the band boys went up to D. L. Holden's, an old soldier who is confined to his bed by sickness, and played him a few familiar songs of the war. This was surely a sunshiny deed and greatly appreciated by Mr. Holden. They then returned to the grove, playing often during the afternoon.

A great pleasure was offered the people by listening to songs by Ernest Stone and Miss Haggart of Waltham, Mass. and Ernest Greenleaf. Cyrus Chapin of the T. A. Roberts Post Oxford, gave very fitting remarks. In well chosen words he spoke of the object of the I. S. S. and of the amount of good the Golden Rule branch had done in its one year's life also of the object and work done by the Women's Relief Corps for so many years assisting the G. A. R., Mr. Chapin was heartily applauded for his fitting remarks.

The hour for breaking camp came too soon and as the good byes were said our out town people remarked this is the ideal spot for a picnic. I shall want to come here every year.

Ernest Greenleaf did good work in building seats, tables, putting in the organ, swing, loaves and other helpful things to make the day a grand success. John Cleveland loaned the organ.

W. F. Smith is at work for James L. Holden of Oxford.

H. M. Stone returned from Andover on a fishing trip, Thursday.

Elsie Pease returned from Old Orchard last Monday with a party of friends from Portland.

Mrs. Maud Bryant and daughter Nellie spent a few days last week with Mrs. F. C. Greenleaf.

Mrs. John Lunt and daughter Mildred of Auburn, have been visiting relatives in this place.

Francis Greenleaf and Lura Morrill of Auburn, spent Sunday with his parents on Broad View farm.

Mrs. Etta Walker and children of Massachusetts, have been visiting her aunt, Mrs. M. E. Cleveland.

Mrs. Fannie Frost and Mrs. Charles Libby of Norway, attended the W. R. C. and I. S. S. picnic last Thursday.

Mrs. C. E. Kemp has gone to visit her two sons in E. I., and will visit her son in Kingston, N. H., before she returns home.

Mr. and Mrs. Peter Wood and Georgia Foster went to Meigsbury Hill, Poland, Sunday to attend the funeral of W. J. Morse.

James Watson, wife and two children of Worcester, Mass., came in their auto Tuesday for a week's visit with their sister Mrs. D. L. Holden.

Bert C. Kemp and wife and Miss Frazier of R. I., spent a few days with her brother M. C. Kemp last week, returning home, Monday.

William and Ernest Stone and Florence Haggart, who have been visiting at O. H. Stone's the past two weeks, returned to their home in Waltham, Mass., Sunday.

Lewis Bean carried a party of eight to Poland Springs, Saturday. They were Mr. and Mrs. Bert Kemp, Miss Frazier, Mrs. M. C. Kemp and daughter Lena and Mr. and Mrs. Arthur Lane.

Margery Davis is visiting her sister Agnes.

C. W. Waterhouse had a very sick day Thursday.

Lots of people have been on Baldface after blueberries, this week.

Mr. and Mrs. W. McKee are visiting relatives at Kezar Falls.

Margery and Frank Pray were at Bridgton, Saturday, on business.

Berencie, daughter of Mr. and Mrs. Waldo Nash of Norway, is visiting her cousins, the Howes children.

Marion, daughter of Rev. and Mrs. E. F. Doughty of Alfred, formerly of this place, is visiting her little friends here.

Aug. 21 Mrs. Will Howe and Mrs. Ross A. Thompson entertained the circle. A large company took supper. Program as follows:

Music: Archie Hurd, John Hall, Prayer: Helen and Chester Baker, Diet: Agnes Davis, Reading: Mary Hall, Solo: Margaret West, Reading: Margaret Pray, Singing: Mrs. Bradley.

Receipts of evening, \$8.20.

EAST OXFORD.

Mrs. V. A. Rawson and son are visiting at West Paris.

Mrs. Chas. Noble is suffering with a sore finger, caused by a jam, received in closing a window.

## HARRISON.

Lakeside Grange Field Day.

Lakeside Grange held its annual field day Saturday, Aug. 22d, at Floral Lawn Farm, the beautiful home of Mr. and Mrs. W. H. Briggs.

The weather in the morning seemed very unfavorable and doubtless hindered many from coming, but in spite of this, when the company were seated, under the trees on the lawn for their picnic dinner, it was found that more than a hundred had accepted the cordial invitation of Brother and Sister Briggs to be present.

The morning had been spent in an informal, social way. After dinner, worthy lecturer Ethel Thomas presented a sermon by Harry Smith (text found in Mother Goose), recitations by Hazel Briggs, Winnie and Rupert Pembroke, songs by A. J. Chadbourne, Lucia Lakin and May Whitney, reading by Mrs. Lyman Shedd in the reading of the grange journal. This was said to be published as a rival to the Tri-Town Bee, and contained many amusing hits.

In the afternoon, there was a ball game, between a picked nine of the grangers, who play only once a year, and the Harrison seconds. Needless to say, it was won by the small boys.

The Woodland Rebekahs mid-summer sale was a very successful affair. The sale was held in their banquet hall. On entering the door you beheld a handsome apron booth in deep pink and white at which Mrs. W. F. Smith, Mrs. J. T. Kneeland and Mrs. Nancy Tracy presided.

Opposite was a dainty booth in white and lemon, where all kinds of home cooked foods were sold. Mrs. Nellie Davis and Mrs. Nellie Fogg presided. In the center of the hall was a large fancy work booth in blue and white, where Mrs. H. H. Caswell, Mrs. W. A. Southworth and Mrs. Joseph Pitts sold a large amount of fancy articles.

On the left was a pretty booth in red and white with a placard in front which said "Keep Sweet," where Mrs. Ada Flint and Joseph Ricker sold a large amount of home-made candies, candied orange peel and salted peanuts.

In the corner of the hall Mrs. Ralph Burnham managed a fish pond which was decorated in emerald green and white, where many fishermen tried their luck and brought out a nutmeg grater, lead pencils, etc. In the opposite corner was a very handsome booth in pale blue and white, where beautiful hand-made handkerchiefs were sold by Mrs. C. W. Jackson, Mrs. Fred Greene and Alice Greene. Mrs. F. P. Bennett had a melody booth in apple green and white, where she sold odds and ends and did a flourishing business in her line.

About two hundred dollars were realized from the sale.

The minstrel show on the evening of the 18th conducted by Mrs. Ada D. Flint was one of the best ever given in town.

Arthur Stanley was intercomedian. The chorus was composed of some of our finest local talent, 16 voices in all. The soloists were Lucia Lakin, May Pitts, May Whitney, Mary Hutchinson and Geo. Flint. The music was bright and catchy, the jokes good with many local hits.

Mrs. Lyman Shedd and Cassandra Pierce gave stump speeches which provoked much laughter. A crowded house gave hearty applause. \$56.31 was taken at this entertainment which was considered unusually good. \$14 were taken at the ball on the 19th. Dudley's orchestra furnished music at the sale a part of the time.

Geo. E. Tarbox was at home over Sunday.

Ray Whitney is visiting his father for a week.

A Democratic rally was held last Friday night in Grange hall.

Charles L. Lang from Concord, N. H. is visiting his parents for a few weeks.

Elizabeth Gray has returned to her work in the public library in Washington, D. C.

Mrs. Blanche Chute Coy from Oxford is visiting her parental home, Quincy Chute's.

Rev. Dr. Kneeland from Boston preached at the Congregational church last Sunday.

Mrs. Geo. Woodbury visited Mrs. A. F. Whitney, Friday, and is now at L. F. Briggs' home.

Nellie Pitts is taking a few days of much needed rest from her duties at the Harrison House.

Ray Jackson is back from California and working on Geo. Ross' blacksmith shop at present.

Sumner Davis, jr., was in town last week for several days visiting his sister, Mrs. Frank Fogg.

W. P. Smith went to Portland last Friday and bought a four-horse power Casco engine for his launch.

Mrs. W. H. Bailey went to Portland last Saturday to visit a few days at her son's, Percy Bailey's.

Herbert Fairfield of West Somerville, Mass., who has been stopping at Elms Inn, returned home last Sunday.

Will Davis and family are moving to Watford Flat. Mr. Davis drives the Watford stage and carries the mail.

Postmaster Lane spent last Wednesday and Thursday at Camp Connor, Long Island, attending the G. A. R. reunion.

Capt. Granville Fernald is stopping at Mrs. Alphonse Moulton's finishing up the history of Harrison, which Mr. Moulton began before his death.

Sweden were at George Flint's last Sunday. Mr. Moulton came in his new touring car, a Stanley steamer.

Dr. Clarence Nevers, wife and little son from Winthrop, Mass., and Benj. Flint from Conway, N. H., visited a couple of days last week at George Flint's.

For the past two Sundays the congregation at the Congregational church have heartily enjoyed the special music, solos being rendered by Lucia Lakin and May Whitney.

OTISFIELD.

The Otisfield Teachers.

The following are the teachers to teach the fall term in Otisfield, commencing Aug. 31:

Mr. Corcoran—Delta Weston. Swampville—E. Gertrude Sanborn. Haverhill—Edna Martin. East Otisfield—Olive Martin. South Otisfield—Hazel Edwards. Otisfield—Edna Edwards. Joe—Alton DeLano.

## Base Ball.

Norway 2, South Paris 3.

Another excellent and intensely interesting ball game was played at the fair grounds, Saturday. Both teams played splendid ball and were pretty evenly matched.

First base on balls, off Penfold 1, off Hoit 4, Hooper 2. Hit by pitched ball, Howard. Umpire, Adams. Scorer, Eason.

Hebron 10, Turner 9.

It took ten innings to decide who could claim themselves champions in playing off the tie between Hebron and Turner. The game was a game by four scores and each team was determined to win. The spectators were furnished a plenty of excitement from start to finish.

It was dark, wet weather and ground and ball were slippery and both teams made costly errors. Hebron excelled in batting and Turner in base running. Chase captured two long drives of Pike's to deep center that looked good for several bases, and gathered in four more hard ones without an error.

Pike played his usual fine game, both in the box and at bat. The wet weather was responsible for the large score and the game was much more interesting than the score would indicate or the summary will show in the following batting order and score:

Hebron 10, Turner 9.

## NORWAY AND VICINITY.

**Cottage Burned.**  
Saturday afternoon the Bradhurst cottage at the lake was burned, the fire starting around the chimney in the attic. Ethel Bradbury and Eulalie Davis went to the cottage about two o'clock and started a fire in the fireplace, then went back of the cottage to get more wood. In a few minutes they looked up and saw that the roof about the chimney was on fire. It burned rapidly and scarcely a thing was saved. The loss is about \$800 with an insurance of \$400. The cottage will be rebuilt. The foundation being put in this fall and the building put up in the spring.

**Stealing from Gardens.**  
Moses P. Stiles had some nice large squashes growing in his garden, but one night thieves stole all the squashes and trampled the vines into the earth. F. H. Beck had some of the best sweet corn of the season near his garage. It was just right to pick, but when he went to gather it it was not for thieves had taken every ear. These thefts were in the night.

**Maps of this county 50 cents each.**  
Send to this office.

**Ed Wentzell** has visited his brother, Fred Wentzell of Auburn.

**Leno Segura** of Berlin has been visiting in Norway and South Paris.

**Roger Hutchins** and Winfield Kimball were at Poland Springs, Sunday.

**Judge Morrill N. Packard** and wife of Baltimore, Md., are visiting friends in this vicinity.

**The annual communication of Oxford Lodge, No. 18, F. & A. M.,** will be held in Mason's hall, Friday evening, Sept. 4, at 7:30 p. m.

**Mrs. Louise Keach, Nellie Smith, Leon Keach** and Harold Files of Roxbury, Mass., are the guests of Mr. and Mrs. Eben Shackley.

**Mr. and Mrs. James Shedd,** who have been stopping at Fred Cummings' cottage on Pike hill, have returned to their home on Water street.

**Geo. W. Hobbs** has made extensive repairs at his place on Pike's Hill. A new underground has been put in, a well dug and other work done.

**The Norway corn shop** started Wednesday morning. The first load of corn was hauled by Bert Frost, Monday. Pipes have been connected and arrangements have been made to pump in the water used themselves.

**Robert Millett** and two children, Robert and Donald, and sister, Mercy Millett, who have been here for several weeks' visit with relatives, returned home to Hanover, Mass., last week.

**Charles E. Jenkins** of Lynn, son of the late Henry Jenkins, is visiting here. He recently caught at "the bridge" a pickerel measuring 22 inches long and weighing 2 1/2 pounds. He has taken several mammoth bass and expects to catch more.

**The annual reunion of the descendants of the late David Ray and Louisa (Lovejoy) Holden** was held at the old home site on Crooked river. About 30 were present and all enjoyed a very pleasant day, passing the time with various games and other amusements.

**Allard and Moulton** returned to their tailor shop, Monday, after a vacation of two weeks. Most of the time was spent at home except a short visit to their former homes in Eaton and Freedom, N. H. The insects have stripped the hardwood trees throughout that section of their foliage.

## Sassafras Mead.

Mix gradually with two quarts of boiling water three pounds and a half of the best brown sugar, a pint and a half of good West India molasses and a quarter of a pound of tartaric acid. Stir it well, and when cool, strain it into a large jar or pan, then mix in a teaspoonful (not more) of essence of sassafras. Transfer into clean bottles (it will fill about half a dozen) cork it tightly, and keep in a cool place. It will be fit for use next day. Put into a box or boxes a quarter of a pound of carbonate of soda to use with it. To prepare a glass of sassafras mead for drinking, put a large teaspoonful of the mead into a tumbler half full of ice water, stir in the half teaspoonful of the soda and it will immediately foam up to the top.

**Sassafras mead** will be found a cheap, wholesome and pleasant beverage for warm weather. The essence of sassafras, tartaric acid and carbonate of soda can of course all be obtained at the druggists.

**Orrin P. Allen,** formerly of Denmark and Bridgton, now an extensive railroad contractor in the South, is visiting North. His wife, daughter and two sons came with him and they all are guests of his brother, Aldana, at the Creek, Bridgton. Mr. Allen is now operating in North Carolina, where he employs a large force of men and horses. Like his older brother, W. H. H. Allen, he started rail-roading at the foot of the ladder and like him has won great success.

## INTELLIGENCE COLUMN

Twenty-five words or less, one week, 25 cents; second week, 15 cents; each additional week 10 cents.  
Each word more than 25: One week, 1 cent, and this price is for cash in advance. One and two-cent postage stamps taken.

**COAT FOUND** in street, lost Saturday at the fire. Can be had by calling on John P. Cullinan, Norway, Me. 34-35.

**FOR SALE** eleven good pigs at \$1.50 each, call or address F. H. Morse, Waterville, Me. 33-35.

**MANURE WANTED** speak to or write, F. W. Sanborn, Norway, Maine. 33-35.

**WANTED** a copy of Walling's map of Oxford County, also the Business directory published at that time. Address F. W. Sanborn, Norway, Maine. 33-35.

**DANIELS' PLASTER** for sale cheap. I. W. Andrews & Sons, West Paris, Me. 30-31.

**WANTED** to do job teaming and trucking. Prices reasonable. Speak, write or telephone 10-15. Guy L. Walker, Norway, Me. 23-24.

**ORDER MILL** for sale and 1 acre of land at Crockett Bridge in Norway, Maine. Apply to S. W. Libby, Pearl St., Norway, Me. 30-31.

**SHOATS** for sale. Walter S. Buck, Norway, Maine.

**WANTED** a good reliable girl, well qualified in all house work. Must be a good cook. References required. Address A. ADVANCE, OFFICE, Norway, Me. 27-28.

**FOR SALE** Maine minerals and gems. Cabot's localities. Genes for rings, scarf pins, pendants, brooches etc. Freehand Howe, Jr., Norway, Maine. 11-12.

## Jack's Minstrel Show.

A Pleasing "out of the Ordinary" Entertainment Presented to a Full House.

Jack's Male Minstrels at the Norway Opera House, Thursday evening of last week, was greeted by a large audience. It is safe to say there was an attendance of 500. Several theatre parties from different sections attended, including a large party from Paris Hill.

The stage setting was a pleasing creation of stage craft. It was an Italian garden scene with Starns' orchestra partly concealed on a massive balcony. Some little distance to the front of the orchestra, just back of the semi-circle of performers perched on a full faced moon, sat a young darkey (Shirley McKay) comfortably enjoying a generous slice of watermelon. The lighting plot was something new and looked particularly charming during H. Walter Browne's solo part.

The parts of the singers, jokers and jesters were well chosen and well given. The local hits came along thick and fast and pleased the audience as was shown by the applause given them. The shirt question troubled Charon and Carbin and cropped out at short intervals throughout the evening until Carbin got the shirt that he claimed Charon took, though it had shrunk to diminutive size, it nevertheless quieted the enthusiastic owner.

The solos were some of the best compositions of famous writers including, "If you were Mine," "I'll be Your Lemmo, if You'll be my Squeeze," "I Fear no Fox," "Ashore," and several other popular productions.

Mr. Oelrich, intendant, took care of that part of the program in his usual easy, pleasing manner as he always does on the stage in any part taken by him. Seated contented at his feet were Master Joe and Wiggins Merrill.

Walter Chandler's directory of the program, "take offs" being presented in poetical form. Chandler's balancing acts which were done without error were given the full hand. The finale of the program, the comedy gem, "A Happy Pair," by Mr. Oelrich and Mrs. Mann contained bright, witty lines that amused the audience.

Summed up in a few words the whole evening's entertainment of mirth, laughter and song was a big success and one that gave the theatre goers good satisfaction.

Mr. Oelrich announced that though he had previously stated he expected to leave town soon and that this was to be his last show, he had changed his plan and hoped to present one or two more entertainments and believed the next would be "Way Down East" for the benefit of the Universalist church.

**Norway Directory for 1908, "A Knock-logue."**

The following is the directory of Norway as given by Walter Chandler at the minstrel show, Thursday evening.

**1st Spasm.**  
Our Norway is a funny town,  
Well filled with red hot sport,  
The water turns to lager beer  
And lands men in Jones' court.

**2nd Spasm.**  
The boys are not so much to blame  
For this trip upon the sea,  
What else could thieving players do  
With the water pipe full of sea.

**3rd Spasm.**  
Paris gets doped from Tannery brook  
Well split with frogs and lizards,  
George Morton kicks, and well he might  
With blue stripes in his gizzard.

**4th Spasm.**  
The Radcliffe play a pretty game  
So make us sing a song  
There's a Pike and "G" with Bill Leith,  
Chapman, Beare and Lowell.

**5th Spasm.**  
Young, Price and Joseph Harrison  
Come in for a lion's share,  
When chin is needed, you will find  
These boys are always there.

**6th Spasm.**  
You cannot have a swinging sign,  
You cannot tack a poster  
"Buy or borrow" it says to walk,  
When dead hunt up "Free" Bolster.

**7th Spasm.**  
Drink Never's "Win" as Bill Horne's best,  
Try Beck for your sick auto,  
Call Dennis Pike for Real Estate,  
Let Merrill take your photo.

**8th Spasm.**  
Smiley or Prince will use you white,  
Even at a "Blue Tag Sale,"  
Buy a coat that's out of date,  
Have Nash sew on a tail.

**9th Spasm.**  
F. E. Tower can sing a song  
Or fix a Radcliffe shoe,  
Harry Jones will gas you up  
And drive away the blue.

**10th Spasm.**  
Otto Schner sells rattan chairs,  
Harry Lane cuts our coats,  
Elbridge Walker gets minnow bait,  
While Charles Price deals in shoats.

**11th Spasm.**  
"Doc" Staples and "Doc" Clifford  
Will pull an aching tooth,  
Or tell you how to shoot.

**12th Spasm.**  
Owen Brooks will sell you beef,  
Cook must scrape your face,  
Foster and Noyes might at your farm,  
Exor has a good suit case.

**13th Spasm.**  
Our big steam roller does great work,  
The new armory is a peach,  
That Y. M. C. A. is  
Went sailing out of reach.

**14th Spasm.**  
The Water Board once delivered goods,  
Not extra fine—but wet  
Sampson's trout closed up the pipe,  
The System is "No Let."

**15th Spasm.**  
John Woodman is a fisherman  
Who tries all kinds of bait,  
Stub Rows does not but not  
And kicks against his fate.

**16th Spasm.**  
George Curtis handles wet express,  
But only does his duty,  
The Slope Shop sells and "Bijon"  
Yanking "Tutti Frutti."

**17th Spasm.**  
Frank Kimball is a music man  
Who works upon his nerve,  
"George Howe, you can tell a hen  
From any other bird."

**18th Spasm.**  
Sim Harriman keeps open,  
Morning, noon and night,  
Vernie Rich peddles water,  
The scariest thing in sight.

**19th Spasm.**  
Vivian Hills can fix your watch  
If you have a month to stay,  
Doc Farmer calls upon the Lord,  
"A little out of the way."

**20th Spasm.**  
Sweet and Smith both carry shoes,  
So on each other's crowning,  
You'd better close your doors, my friends,  
And give in to George Downing.

**21st Spasm.**  
Jack Oelrich can surely make a sign,  
Or change with pain—your face,  
He has this show, but it takes "dough,"  
So we're glad you're in this place.

**22nd Spasm.**  
O. Norway, you are really it,  
Your name is written there,  
For "base ball," "high ball," "no water at all,"  
Is checked on the brimstone stair.

Thin summer dresses that have become flimsy and wrinkled but not soiled enough to be washed can be made to look fresh and new by sponging on the wrong side with weak gum arabic water and pressing as fast as dampened, and if a little gum arabic is added to the starch for the thin muslins they will not only look better but will retain their stiffness longer.

Dr. Austin Tenney, oculist, is making his regular annual calls throughout Oxford county.

## NATURE AND A WOMAN'S WORK

LYDIA E. PINKHAM

Nature and a woman's work combined have produced the grandest remedy for woman's ills that the world has ever known.

In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering.

The Indians on our Western plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years in the study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.

Mrs. Bertha Muff, of 515 N. C. St., Louisiana, Mo., writes:

"Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my troubles public.

"For twelve years I had been suffering with the worst forms of female ills. I leave town and I had no relief. During that time I had consulted different physicians without help. No tongue can tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham for advice.

"I read it, and was truly glad that Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice restored health and strength. It is worth mountains of gold to suffering women."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Muff, it will do for other suffering women.

## The Checkrein.

We can make all things injurious not used in the right way, and for this reason many have the abuse that has been apparent from the use of the checkrein on this same have concluded that it was a torture to the horse, and it was in those cases and have concluded that it should be cast away.

My conviction in favor of the use of the checkrein on the work horse came from watching a noted horseman never used any. He never had a checkrein on any of his horses, and from just this experience I became more and more in favor of the checkrein. He also has since gone to using the checkrein, and with a better result.

This man always had sore shoulders on his horses, and I am convinced that working without the checkrein was a great factor in it. I also notice that since he is using them he is not in trouble half as much as before, and this is very easy to reason out. If we place the horse without a checkrein he will naturally be putting his head down and nibbling at the weeds and especially the grass on the turn. Now do not say that if you feed him enough he will not do this, for this makes little difference. It is natural for the horse to be grazing. In the first place, this eating all the time is not good for the horse any more than it is good for the man. We should eat regularly and give the stomach a rest.

But this is not the main point. The horse that is ever putting his head to the ground in working will cause the greater part of the draft to come on the lower part of the shoulder, where it should press evenly all along, and this causes the collar to rub and you have a sore at those places. You may be as able to work without having a sore, but you are more apt to. In working a horse the collar should fit and press over the whole surface of the shoulder. If this constant shifting of the draft does not cause sore shoulders, I do not know what would. For this reason I use the checkrein to keep the horse's head on the natural level.

Do not go to extremes and check the horse so high that you can see his eyes when driving, and not so low that he will be grazing, but check for the natural level, which is higher on some horses than on others. There are some horses that cannot comfortably hold their head any higher than the level of their shoulders. Study this in your horses before you set any particular notch in their checkrein.

The checkrein has also an important place in helping control a horse. Do not throw away any part of the harness that is useful. Do not get the fashion of trying to drive with as little harness as possible. Be humane to the horse and use the checkrein as it should be used, and it will be a help to the horse, but when used in the wrong way it is a torture—Turf, Farm and Home.

The freight steamboat Columbia, owned and operated by Lewis P. Crockett, chairman of the board of selectmen at Naples, proprietor of the Crockett house and lumber manufacturer, while coming down the Songo river ran into a submerged stump and sank almost immediately, the crew of six men having barely time to escape to the shore with a dry skin. The boat was loaded with cord wood and potatoes and the cargo was recovered with great difficulty. The steamer lay on the bottom of the river for three days with nothing but the smokestack appearing above the water but has been raised and brought back to Naples.

**CASORIA.**  
The Kind You Have Always Bought  
Bears the Signature  
of *Chas. H. Pritchard*

## A New, Old Subject.

Potatoes From Seed.  
The seed balls should be gathered early in the fall, laid in the sun a few days and then squeezed out into the water. The seeds will soon rise to the top when they have to be skimmed off and dried thoroughly in the sun, or placed on paper or cloth to dry. After being in a warm, dry room for about 48 hours, the seeds are to be put in paper bags to keep until wanted. Early in the spring, they may be sown in rows in a hotbed, or later in the open ground. When two or three weeks old the seedlings have to be picked out singly and placed in carefully prepared hills, which should be two feet apart in rows three feet apart. A small numbered stake has to be put in each hill, and during the growing season detailed notes should be taken concerning the habit, strength, time of ripening, yield, and general appearance of each plant. This record must be continued each year for five years before one can definitely ascertain the real value of a variety, as many of those which appear promising at first run out entirely, and sometimes those which one is tempted to discard the first few years may grow out the best varieties. At digging time select only a few of the largest and best formed tubers of each kind, placing them in carefully marked boxes, each kind by itself, and in planting use only the largest spuds for seed. At the end of the fifth year before one can definitely ascertain the real value of a variety, as many of those which appear promising at first run out entirely, and sometimes those which one is tempted to discard the first few years may grow out the best varieties. At digging time select only a few of the largest and best formed tubers of each kind, placing them in carefully marked boxes, each kind by itself, and in planting use only the largest spuds for seed.

The first feed should be given at short intervals—every two hours—with fresh water. Millet is a fine feed for young chickens. At first scatter it on a newspaper, so they will have no trouble in finding it. In a few days it can be scattered in clover chaff, and the chicks will enjoy scratching for it. Give millet until the chickens are large enough to eat wheat. Thrashing screenings, such as weed seed, cheat and small cracked grain will be a desirable food for them. Never feed sloppy food.

Keep plenty of dry, coarse sand in the scratching or exercising pen. Instead of beef scraps curdled milk may be fed. Scald the milk, and the curd and whey will separate. Drain it by hanging up in a muslin sack, and when it is sufficiently dry crumble it to chicks.

Above all, don't turn the young chickens out in the early morning dews. They will bedabble themselves and take the gaps or some bowel disease. Have good shelters for them on rainy days, and make the coops rat proof. Be careful also to see that the coops are spacious.

## A Farm Hospital.

So many diseases affect stock don't you think it would be a good idea for the farmer to have a room or stall set apart as a hospital for such animals? Every dairy or farm should have a hospital for the use of animals when they are sick from whatever cause, that they may be kept apart from the rest of the herd. This in case of contagious disease may be the means of saving much trouble and money and the lives and good health of the other animals. It also adds to the comfort of the sick animal at the time of parturition for quietness and easy attention go a great way to ensure safety from all the accidents of this condition.

## Some New Methods.

A recipe has been found for getting rid of agents and canvassers, and how could one confer a greater blessing on mankind, or more especially on woman-kind. It seems that one day a certain young married woman went to the door of the house and inquired if the lady of the house was in. Now the young matron is one not easily phased and her wits are always with her. She looked blankly at the man a moment and then began to pour her lips and point to her ears. Again the man inquired in bland but louder tones, "Is the lady of the house in?" And again the lady of the house performed her pantomime, making mysterious signs with her fingers. Then the agent fairly shouted, "Lady, I want to sell you a certain—d woman I ever saw that couldn't talk." Evidently he had had ex-per-i-ence.

This same young lady was some days later called to the door by a beggar who told the usual distressing tale of woe. The listener expressed the deepest sympathy in her countenance, apparently swallowing every word. Then with tears in her voice she made answer: "Oh, I'm so sorry for you. I would be awfully glad to help you, only I am so poor myself. But I'll tell you what. There is my neighbor next door, Mrs. K—. She has plenty of money, and one of the kindest hearts in the world. I know she'll help you. You just call there and tell your story and I know she'll give you at least a dollar." The beggar departed but history saith not whether he got his dollar.

**Desiccated Brightness.**  
Chopped from Our Exchanges.  
Just a touch of Fall in the air.

We are all obliged to pay our tuition in the school of experience.

Now since Massachusetts cannot enforce the law against crooks and yeg-men, in order to be consistent she should license them.

Whether dog days are over or not, fly time has apparently only just begun, as any bald-headed man can tell you.

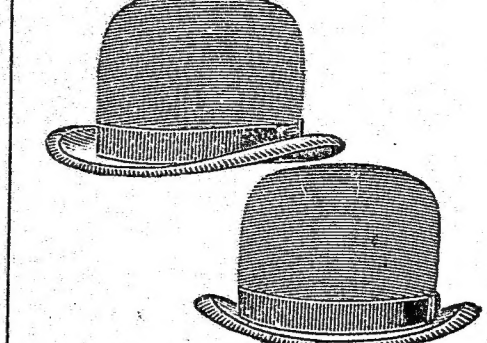

What is the largest room in the world? The room for improvement.

One good thing about a political campaign is that a fellow isn't compelled by law to smoke all the cigars handed out to him.

The little town of Taft, named in honor of the Republican presidential candidate, out in Montana, had a serious fire the other day which destroyed the hotel and two saloons, thus evident-ly wiping out the leading industries of the community. This would probably be a good field for Candidate Chaun of the Prohibition party to tackle.

## Cement and Concrete Buildings

Much has been said about the cement buildings that are being constructed in Norway, and we have gotten one of the contractors who are building these buildings to tell our readers more about them. This is what he writes:

Portland Cement and Concrete is not the coming material but the material of the future. It is a moderate priced cottage or an elaborate residence, office building, factory, barn, etc. Concrete is here to stay, and as soon as people know the facts it will take the place of wood and clay brick almost entirely. It is such a great industry and of such varied importance to all that I want to attempt to refer to only a few points to begin with, hoping it may awaken a keener interest to get at facts which able writers are contributing in magazines and trade papers and facts also supplied by government at Washington, as well as the most state laboratories and colleges, and especially on the stability of Portland cement concrete.

Before considering details of concrete making, whether in hollow blocks or solid walls, bridges or floors, let us first understand what Portland cement is, how it originated and how it is made, how it differs from natural cement, sometimes called Rosendale cement. Rosendale is called natural cement because it is mined and burnt without chemical preparation to bring it to a fixed chemical analysis. This cement varies greatly and is used mostly for mortar for laying brick and cellar floors.

Portland cement is a chemical preparation and may be said to have a fixed standard by varying in minor ingredients in different factories owing to slight variation in material although near enough to the correct analysis for practical results. According to the writer's best knowledge Portland cement was first made in France and perfected by an eminent engineer in England about 60 years ago. He discovered that the mixture he had experimented with had great value as a building material, and made the remark that it would produce artificial stone equal to Portland stone which was quarried extensively in England at that time. Hence the name Portland is applied to all high grade cement manufactured for building purposes at the present time.

Foreign countries, especially England and Germany, took the lead in cement manufacturing until quite recently. Now the United States lead, having plenty of material and the best machinery for grinding and burning.

For the year of 1901 show that there was the greatest amount of money invested in cement plants and machinery for molding concrete of any industry for that year. This gives some idea of the magnitude of the cement and concrete industry at home, while abroad, especially in Germany, cement building is quite common, especially where substantial structures are especially desired.

Portland cement, so called, has a certain fixed standard, chemical analysis and guarded carefully at the factory by expert chemists.

The bulk of material used to make Portland cement is lime rock or the like and common clay. The rock is crushed and then the clay is added. After it is thoroughly dried then analyzed to determine the amount of clay required for the batch. After adding the clay or other material, which is done by machinery, the mixture is ready for burning and is run through a long rotary kiln. These kilns are about 100 feet long and 6 feet in diameter, having stationary burners at lower end where heat is generated to be carried along inside of the kiln, which is shaped like a soil pipe with hub fitting over end of furnace. The revolving of kiln carries the material along and empties same into storage pits. During the burning the rock and clay become what is called clinker and resembles common soft coal ashes.

Now the product is ready for recalcining and a still greater burning, similar to the first except in some mills the kilns are fitted with steel shot for tumblers to help pulverize the clinker as it gradually burns and works its way through the kiln.

At this time there are minor ingredients added to the mixture which vary from day to day and from place to place, according to raw material found in different places. The material is finally pulverized and put through very fine screens when it is put up in bags or barrels ready for shipment.

Such a plant is erected on such a large scale as to cost several millions of dollars and only where there is a large amount of material, enough to last quite a long time, at least 20 years. There are no hard fast rules for concrete making as it depends greatly on the curing and grade of sand and determined easily by those familiar with conditions, etc.

However the general mixture used with good results, is about three parts sand to one part cement with additional broken stone or screened gravel amounting in some cases to five parts, according to soil in same which should not exceed what can be filled with the 3 and 1 mixture.

For hollow block work no coarse gravel is used as in heavy solid walls because of hindrance to thorough drying which is very important especially for blocks with dry process.

Reasonably well made concrete is the most durable building material known, but through jealousy or lack of knowledge many people are heard to make remarks which are laughable and puts some critics in a class to be objects of pity, especially where a nation of home builders are to receive the benefits of better, safer and more artistic dwellings, including color to suit one's taste, and best of all at a price, if properly managed, to enable many to own a home that never could otherwise, or if desired the most costly and artistic mansion conceivable can be erected.

Don't compare a concrete structure by a concrete sidewalk. The sidewalk has been torn and cracked by frost heaving, which would move a mountain had it been so placed as to get in the way of frost. For all buildings it is necessary to have a foundation below frost, then concrete stays in place and will carry a load of 75 tons per square foot.

To those who have made concrete buildings a study the matter of furring and lathing vs. water-proofing has been decided in favor of water-proofing for the fact that it is plain to see that it is better to keep cold out of a building and make it impervious than to try to escape it after it gets in. To make a dry, warm concrete building by water-proofing it is simply in how thorough the work is done, and for the same money water-proofing is best and avoids our fire traps, which too often prove to be a death trap. Of course this construction I refer to is the common hollow block style having about 20 cent.

air space, properly laid so as to form flues the entire height of building.

To the investor without particular knowledge of concrete it is quite a problem to decide whether such a building is desirable or not. As previously stated, scientific information is at hand for the asking at principal seats of government and schools, but let us ask ourselves if it is not proven beyond a doubt that concrete is substantial through the fact that not only immense structures in large cities are built entirely of it or else resting on it as a foundation. Instead of a few hundred dollars' worth, as in a house, several millions of dollars' worth in the big modern concrete office buildings which are being built under direction of our best engineers and invested in by shrewdest capitalists in the world.

It seems to me that everybody should know the facts and not feel that they are in the dark regarding the matter of building of concrete, get all the benefit possible under present conditions and not let the next generation reap all the harvest which is in store for them and give us the laugh besides, for fire-traps for houses are certainly going out of date and 50 years hence they will be in a class with log cabins and old-fashioned hewn timber houses, simply because people are getting sick of fires and constant repairs, and because a modern concrete house with wood partitions costs no more than wood, while a strictly fireproof house only costs a little more.

Here I wish to come back a step to refer to the practicability of hollow concrete block houses and some of the faults, rather in most cases fancied by those who please to criticize, as for instance one has said during a severe storm water seemed to drive in so as to appear inside of the wall. Allowing this is true it is no cause for condemnation of the entire structure for an improperly fixed flash-bulb or poor joint in masonry might cause this fault, all of which can be easily remedied, and after all in most cases such defects are so slight that they are hardly worth mentioning. For practical purposes even with faulty construction and not remedied the defect referred to would not make dampness enough to be detected had it not been seen, so it is really a matter of fancy more than fact.

How often most of us have known snow to blow into a house from some cause or other, but we would not condemn the whole structure, although possibly annoyed no material damage incurred, and I refer to it merely to illustrate how easy it is to make a big story out of small facts. However such defects are easily avoided in concrete structures and are insignificant compared with many greater problems concerning this particular method of building.

Of course concrete in shape of building blocks is comparatively new, hence to most of us, like all other new things, a host of criticism but the facts will remain on the credit side and instead of adding to loss of life and property for us it will stand as a monument to progress and an effective barrier to devastating fires and wind.

The cost of concrete structures is somewhat misunderstood and many estimate that a fair sized house costs anywhere from a song to a thousand dollars. Such estimates are ridiculous and extremely so if a little figuring is done. If not familiar with such estimating a little common sense will suffice to at least get an approximate price.

In the first place the cellar and foundation have to be done and if anything a little better than for wood structures so there is no discount here. Doors, windows, inside finish, floors, plumbing and inside painting and papering, some of the casing, etc., cost more in a concrete building owing to convenience for nailing, etc., so there is no discount here. Then your roof is another case where there is no discount and the sum total to make a house cost only a song is what you can save on wall, studding and cladding. With a little reason it is easy to see that a concrete wall structure must cost at least as much as wood simply because your margin to save on is so small. If the concrete wall cost nothing such buildings would cost more than a fair share of the money with which they are built.

Such estimates are criminally foolish for it influences some to their disadvantage and hinders progress along important lines. However, the fact remains that hollow concrete construction is estimated throughout the country to cost ten per cent. more than wood. Only with expert ability and good favorable conditions has it ever been possible to build of it at a less expense than wood. This means the first cost, and here is where concrete wins for cost of insurance is less, repairs much less and it lasts forever as far as any expert knowledge goes. It is warmer in winter and cooler in summer, has a more even temperature, hence healthier, and costs less to heat.

The concrete building trade must be a profitable one to engage in, but to make it so one must necessarily make it a study and equip himself with knowledge to enable him to handle the conditions of block making of which there are several good ones. The idea of buying a machine and saving on building yourself without engaging in the business permanently is the result of disappointment and must surely cost dear for your experience, which would not be of any value unless you intend to follow the business. If you do follow the business I think it will be interesting and reasonably profitable at the same time proving an advantage to your customers.

Respectfully, C. H. CRAIGUE.

## They will cure me of DYSPEPSIA

Newburg Center, Me., 1905.  
"I had been troubled with dyspepsia several years and could not seem to get any help for it. A friend of mine advised me to try your Bitters, which I did, and have found that they have helped me. I think in time they will cure me of dyspepsia." Yours truly,  
Mrs. Rebecca Tribou.  
The true "L. F." Atwood's Bitters have been used and recommended by the general public for nearly sixty years, 35c. at druggists.

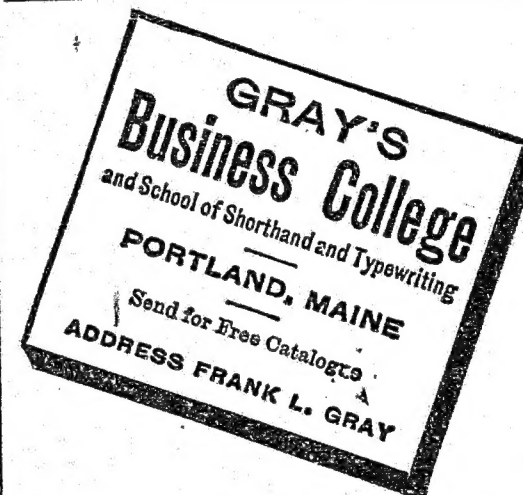

## NEURALGIA ACHES.

Relief in Ten Minutes by Simple Remedy.

"Anyone suffering the agonizing pains of neuralgia wants instant and immediate relief. Its quick action is one reason why Neuralgia Anodyne has made so many friends among neuralgia sufferers.

Take a small dose internally to strengthen and quiet the whole nervous system, and at the same time, apply a little of the Anodyne externally to the affected part so that its soothing power will go through the pores of the skin to the throbbing nerves.

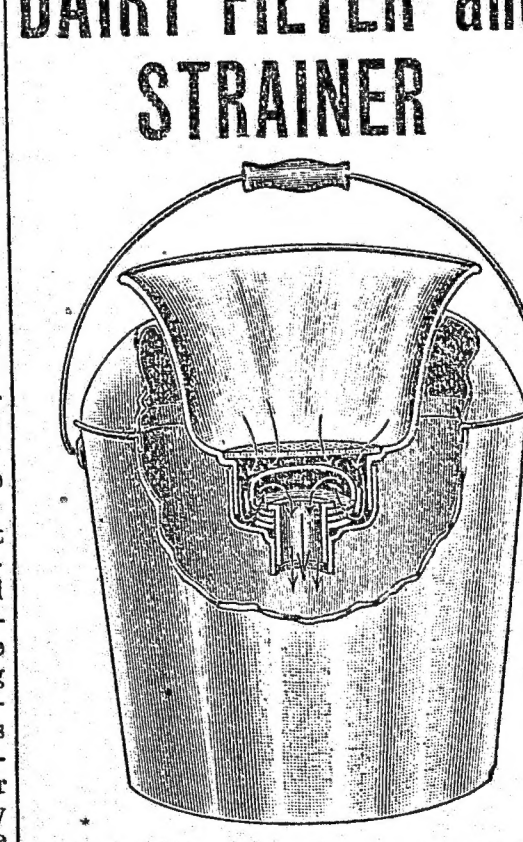

In ten minutes from the time you started to use the Anodyne you will find relief from pain and suffering. Neuralgia Anodyne has been used with such uniform success in curing neuralgia, headache, toothache, etc., that it is sold with the guarantee to refund the money if it does not do all that is claimed for it.  
A large bottle costs but 25c. Made by The Twitchell-Champlin Co., Portland, Me.

### NORWAY LAKE.

Norway Lake School Association.  
The 20th of August was decidedly cool but that did not prevent nearly 100 people gathering in our schoolhouse grove to help celebrate our fifth annual reunion. Quite a number came from out of town, among them were:

Clarence Mallett, Rochester, N. H.  
Mrs. Z. M. Mansur, Newport, Vt.  
Mrs. Carl Storrs,  
Arthur Mansur, Burlington, Vt.  
Mrs. Nat Warren, Bolster's Mills.  
Mrs. Elizabeth Scribner,  
Mrs. Iva Holden,  
Dr. and Mrs. E. J. Noyes, Lovell.  
Lena Noyes.

After the dinner was served we listened to the short program prepared by Mrs. Knight, Mrs. Murch, Miss Shattuck and V. L. Partridge.

Chorus of Girls  
Prayer,..... Elmer Dunn  
President's Welcome,..... Asa Frost  
Records of the fourth reunion,..... Secretary  
Treasurer's report,..... J. L. Partridge  
Business election of officers for the next year:  
Pres.—Frank Wood,  
1st V. Pres.—Thaddeus Roberts,  
2d V. Pres.—Friedrich Fottle,  
3d V. Pres.—Ira Wood,  
Sec.—J. L. Partridge.  
Reading,..... Goldie Frost  
Singing American Hymn,..... Chorus of Girls  
Reading letters from absent members,..... Secretary  
Necrology,..... Mary Perry  
Short speeches,.....

Adjourned to meet at such a date as the officers of the association decide upon. All went to their homes feeling that our fifth reunion was a success and hoping to be here again next year.

Mrs. Winnie Hall returned from Sabatis, Saturday.

Mrs. Colby Frost of Harrison, was at David Flood's, Tuesday.

Mr. and Mrs. W. H. Pride and daughter Madeline were in Portland, Sunday.

Prayer meeting at the hall has been changed from Friday evening to Tuesday.

Gertrude Gardner of Norway, was the guest of her friend Elizabeth Lascelle, last week.

Mrs. E. J. Noyes of Lovell, has been visiting her parents, Mr. and Mrs. J. L. Partridge.

Clarence Mallett of Rochester, N. H., visited at W. S. Partridge's from Wednesday until Saturday.

Mrs. Nellie Mallett and Miss L. Murray of Norway, were guests of Mrs. Benjamin Tucker, last week.

There will be a social at Mothers Club hall Saturday evening, for the benefit of the Norway Lake base ball team.

Mrs. Asa Frost came home from Sabatis, Tuesday. Her daughter Mrs. W. Wood came with her to visit for a few days.

Norway Lake Woman's club will have their first meeting of the season Wednesday, Sept. 9th, to meet with Mrs. C. A. Stephens.

Mrs. Z. M. Mansur and daughter Mrs. Carl Storrs of Newport, Vt., and Arthur Mansur of Burlington, Vt., have been guests at Miss S. P. Newhall's for the past week.

Mr. and Mrs. Eugene Libby and two children Warren and Ruth and Fred Charles of Boston, were at W. S. Partridge's, Sunday.

**NORTHWEST NORWAY.**

Ben Richardson is working in the corn shop at Norway.

W. F. Brown is working for Chandler Merrill in Waterford.

Lin. Cox has been canvassing for fruit trees and shrubbery.

Laura Hunt and Hattie Richardson have gone to Biddeford to work.

B. H. Doughty mowed for W. S. Buck with his mowing machine last Wednesday.

Stephen Merrill from North Norway has been visiting his daughter, Mrs. W. F. Brown.

Bert York and David Thurston have been helping Everett Kimball get his meadow hay.

C. E. Paine from Bethel has been here recently canvassing for sleeve-boards and wall-pockets.

Walter Newcomb and C. P. Thurston have been to Lewiston and bought a nice pair of horses.

Ralph French from Auburn and Frank Buck from Norway Lake visited at W. S. Buck's last Sunday.

Mr. and Mrs. Orin Brown and son, Linwood, came home from the Advent camp-meeting at Mechanic Falls, Monday.

Mrs. Simon Richardson has returned from Winthrop, where she has been visiting her daughter, Mrs. Ethel Rogers.

Mary A. Holt, teacher and supervisor, of schools in Soperville, Mass., who has been visiting her mother, Mrs. E. J. Holt, several weeks, has returned.

Lena Buck came home from the Burnham cottage, where she is working, and returned the same day. Elsie Buck went to Lakeside, N. H., last Saturday and commenced teaching another term of school there, Monday.

A baby daughter, with whom they are much pleased, arrived at the pleasant home of Mr. and Mrs. Orin Holman, Tuesday, Aug. 18th, in Hallowell. Her name is Dorothy Jean. Mrs. Wynan from Norway Center is nursing Mrs. Holman and her sister, Grace Brown, is with her.

### OXFORD.

**His Wife a Lepor.**

The papers have recently had much to say about the death of Gen. David W. Wardwell in New Mexico as the result of over exertion and excitement caused by taking his wife from the Lepor hospital in Texas and the subsequent flight into New Mexico. It appears that Gen. Wardwell was a native of Maine. He was the eldest of eight children of Wm. and Abigail Wardwell of Oxford, Me., and born in 1824 and received his education in the public schools of his native town.

At the time of the Mexican war he enlisted as a private in the army where he won the rank of second lieutenant. At the breaking out of the Civil war he tendered his services to the governor of Massachusetts, and was commissioned colonel of the Fifth Massachusetts Regiment and went to the front. He passed through Baltimore with his regiment only one train after the famous Ellsworth Zouaves and thus missed the riot by one hour and twenty minutes. He had been three times married. He leaves a widow, two sons, one daughter and three brothers, Samuel C. of Brockton, Mass., Thomas of North Berham, and Cyrus T. Wardwell of Oxford.

Dr. E. B. Holden is in Canada. Camp Oxford closes Saturday, Aug. 29th.

Clinton Bumpus is building a boat house.

Mrs. C. M. Bumpus went to Lewiston, Saturday.

Eva Twaddle of Bethel is the guest of Florence Eaton.

S. G. Davis and B. F. Flood went to Lewiston, Tuesday.

A number attended campmeeting at Mechanic Falls, Sunday.

H. O. Blake left Tuesday for Beverly, Mass., to visit his son.

Lula and Ida Stone are visiting relatives in Portland and Saco.

H. S. Denning, who is working in Portland, spent Sunday here.

Dr. and Mrs. H. R. Farris take an auto trip to Frouls Neck, Thursday.

Mr. and Mrs. Frank Keene spent Sunday with relatives at Auburn.

Leonard Bowie and Roy Edwards are spending the week at Peaks Island.

Miss L. E. Clouman of Bangor is the guest of her sister, Mrs. James Cook.

Edmond Woodside of Boston is the guest of his cousin, Joseph Robinson.

Mrs. Julia Farrington and Mrs. Perley French spent Sunday at Old Orchard.

Mrs. Nellie Wardwell and Lizzie Coulton spent Sunday at Old Orchard.

Sadie Adkins of Livermore Falls is the guest of her aunt, Mrs. F. A. Smith.

Mrs. Belle Fisher has gone to Portland to visit her sister, Mrs. M. A. Ellis.

Mrs. Alice Edwards of Somerville is visiting relatives in town part of last week.

Mrs. Lizzie Kennison has gone to the C. M. G. hospital, Lewiston, for treatment.

Mr. and Mrs. Clarence Flood of Waterville spent Tuesday with Mrs. N. G. Frost.

Mrs. H. E. Gould and Miss Repplier are the guests of Mr. and Mrs. G. B. Turner.

George Parrott, who is spending the summer at Peaks Island, was in town, Monday.

The guests at the Oxford Spring House had an old-fashioned corn roast Monday evening.

Mr. and Mrs. A. L. Thomas of Malden, Mass., have been visiting Mr. and Mrs. C. C. Davis.

Harry DeLano has gone to Livermore Falls to play ball at the fair. Saturday he will play at Gray.

Charles Durrell, who has been conducting summer school in Eastport, is at home for a short vacation.

Mrs. Blake and daughter, Flossie, of Portland were the guests of Mrs. Blake's brother, H. O. Blake, last week.

The Republican rally at Robinson hall, Tuesday evening was well attended. Hon. John Sweeney was the speaker.

Mrs. Yilla White and daughter, Lenora, of Reading, Mass., were the guests of Mr. and Mrs. L. E. Wardwell part of last week.

Mr. and Mrs. Carl Edwards of Portland are spending two weeks with Mr. Edwards' parents, Mr. and Mrs. E. N. Edwards.

George S. Emerson, wife and son also Wm. H. Brookway and wife of Lowell, Mass., have returned home after a very pleasant vacation spent at Oxford as guests of J. L. Holden and family.

**Allen Hill.**

A school reunion was held at Webber schoolhouse Aug. 19, with a good attendance, about 165 persons being present. The forenoon passed away with music on the phonograph and playing ball. A baked bean dinner with lemonade and coffee was served in the grove near by. The tables looked very pretty with their dresses of white which were decorated with napkins and large bouquets of flowers. After dinner all enjoyed listening to the following program:

Music.....Phonograph  
Address of Welcome.....The Old Webber Schoolhouse  
We learned the best way how to reason and spell.  
The old district school that we all know so well.  
When summer or winter, rejoicing or joyous,  
We learned the best way how to reason and spell.  
Near them of the road that our feet travelled daily,  
"Neath the tall shady trees where at recess we played.  
The schoolhouse stands waiting and welcomes us gaily.  
Her star-strewn scholars and you who have strayed.  
She stands with a warm, loving welcome extended.  
To each and to all of us gives the glad hand.  
'Tis her heart that is true, and to genius pretended.  
Or just joggled along like the most of the  
She welcomes us all, children, parents and teachers.  
Who are present today; and those who've gone home.

The Old Webber Schoolhouse.  
Written by Cora M. W. Greenleaf.  
How dear to our hearts is the old Webber schoolhouse.  
The old district school that we all know so well.  
When summer or winter, rejoicing or joyous,  
We learned the best way how to reason and spell.  
Near them of the road that our feet travelled daily,  
"Neath the tall shady trees where at recess we played.  
The schoolhouse stands waiting and welcomes us gaily.  
Her star-strewn scholars and you who have strayed.  
She stands with a warm, loving welcome extended.  
To each and to all of us gives the glad hand.  
'Tis her heart that is true, and to genius pretended.  
Or just joggled along like the most of the  
She welcomes us all, children, parents and teachers.  
Who are present today; and those who've gone home.

George Moore and granddaughter Ruth of Canton, called on Mrs. Maggie Heald one day last week.

Harold Spaulding has purchased a farm of Elbridge Benson and is making repairs on the buildings.

Isaac Thorne of South Woodstock traveled through this vicinity recently with a variety of articles for sale.

The Minot Packing Co. has been round looking for corn so as to open the corn shop the last of this week.

Mr. and Mrs. A. G. Hadley visited Mrs. H. W. Davenport, Sunday; also George Grotchy of Hartford, called.

"The cleverest girl is she who arranges her pompadour over a bump of old-fashioned horse sense."

They also are present in loving remembrance in the hearts of old schoolmates still left here to roam.

We're learning, still learning Life's arduous lessons.  
For we hadn't learned all when we left school behind.  
And with tears in our eyes let us make a confession.  
We are terribly slow, age, and stupidly blind.  
We are not punished sorely without understanding.  
We have long recess, or spare time for play.  
Experience teaches hard lessons, commanding the strictest obedience,—no other way.  
But today is a recess; once more we are scholars.  
Just let out from lessons to frolic and play.  
The grayer your hair is, the more you must "holer."  
Time flies, therefore run, jump and shout while you may.  
Long live the old schoolhouse and everyone present.  
To meet here at recess for many a year.  
Occasions like this help to make Life more pleasant.  
And oft brings a smile in the place of a tear.  
All welcome, thrice welcome, who're present.  
Three cheers for our schoolhouse. Now, hip, hip, hurrah!

**FORE STREET.**

Ira Harriman recently lost his best driving horse.

George Llewellyn of Portland, is spending his vacation with relatives here.

Fore street school will begin Sept. 7, with Erle Linnell of Oisfield, as teacher. A nice hard wood floor has just been laid and the seats changed for more comfortable ones.

**NORTH NORWAY.**

### NORWAY AND VICINITY.

Norway Water Co. Troubles.

Temporary suction pipe has been laid into the lake and the steam pump put in operation.

Monday at 6 o'clock p. m. the Norway reservoir was full, as the water company straps all around, exactly as per pattern, lined with fine quality satin, 13 good pleated skirt with 5 inch fold, colors, black, navy, brown, green and wine.

The Soudens of water in it and the Water Company feel they are in pretty good shape to handle a fire if one occurs.

The repairs for the gas pump are expected any day and with this pump in working order things will go on more smoothly.

Mrs. Winfield Cordwell is reported as improving.

Lewis Buswell is cutting samples at the shoe shop.
